

Fact Sheet

Company profile

With over 7,000 employees, Xella Group is one of the leading, internationally operating solution provider of building materials and related industries. With its Ytong, Silka and Hebel brands, Xella is one of the world's largest manufacturers of autoclaved aerated concrete and calcium silicate units. The Multipor brand stands for non-flammable mineral insulation boards. With Ursa we are one of Europe's leading manufacturers of insulation materials.

Xella is headquartered in Duisburg (Germany), with 95 plants and sales organizations in more than 25 countries. In many of its markets Xella holds a leading position.

The success of Xella is based on strong brands in the premium segment, a superior service portfolio, a solid business model, and systematically expanded cost leadership. Xella is a pioneer in the field of digital planning services for the realization of construction projects. Xella products are made from natural raw materials and are thus sustainable in their application. Therefore, they make an important contribution to the construction of energy-efficient, high-quality buildings, and consequently to environmental protection and the conservation of resources.
